

ACE ASB

AGILE CONTINUOUS EDUCATION

What is ACE?

Agile Continuous Education (ACE) is a revolutionary approach to learning, designed to enable learners to adapt to the fast-paced changes in technology and society. ACE offers flexibility, modularity, and stackability, to ensure learners can access education that is timely, relevant, and personalized.

Flexible Delivery

1. Time. Place. Content.

Learning unbundled from traditional constraints, much like how streaming services have transformed media consumption.

2. Agility

Learn where you are, when you can, and what you need, as flexibility and speed are key for remaining relevant.

Modular, Progressive Structure

1. Stand-alone, micro-credential courses

Short, focused courses geared towards trending skills and new areas of knowledge.

2. Micro-Credentials

Standalone courses can be stacked to form Micro-Credentials.

3. Stackable to Degrees

Micro-Credentials can be combined to gain eligibility to apply for comprehensive qualifications, culminating in a Master's degree.

PEDAGOGICAL APPROACH

ACE employs cutting-edge pedagogy that emphasizes authentic and durable learning.

1. Real-world case studies: Apply your thinking to real situations and events.
2. Games and simulations: Hone your skills with exercises that make you think.
3. Projects: Apply your skills to a new open-ended problem.

CREDENTIALS

Upon completion of ACE programs, learners receive digital credentials that validate their skills and knowledge.

COURSE DESIGN

THREE LEVELS OF ACE

ACE Courses

Individual standalone courses that can be credit/non-credit-bearing. Subscribe to any available courses and complete at your own pace, within the designated time.

- Scenario Planning
- System Optimization
- Operations Management
- Managerial Economics
- Data, Models, Decisions
- Organizational Behavior

ACE Up

Up your game by stacking up and taking more courses. These can be individual courses or courses of a specific specialization such as Supply Chain.

- Supply Chain Specialization
- Operations Management
- Supply Chain Fundamentals
- System Optimization
- Scenario Planning

Pre-MBA Pack:

- Quantitative Methods
- Operations Management
- Organizational Behavior
- Managerial Economics
- Corporate Finance
- Marketing

ACE2Degree

Go all the way and transfer your credits to a full-time MBA or Executive MBA program, subject to admissions approval.

- Growth Mindset
- Integrative Management Lab and Other Experiential Learning
- Course Credits (accumulated from ACE credit bearing courses)
